RELEVANT EXPERIENCE & PROJECTS

Campus Friends Forever (CFF) — App Prototype — User-Centered Design (DIG3811) - Led end-to-end UX design for a student social-connection app, from concept through an interactive high-fidelity Figma prototype used in usability testing - Ran user surveys and moderated usability tests with student participants, translating feedback into iterative design changes that improved task flow - Coordinated with a cross-functional team to align app purpose, information architecture, and visual design	<i>Jan – Apr 2026</i>
MERN Stack Music Management Web App — Web-Based Information Technology (CIS4004) - Developed a full-stack web application using MongoDB, Express.js, React, and Node.js - Built front-end components in React and connected them to backend API routes, gaining hands-on experience with client-server architecture and database design	<i>Oct – Nov 2025</i>
The Vault — Multi-Page Branded Website — Foundations of Human/Computer Interaction (CAP3104) - Collaborated with a team to design and build a responsive, multi-page website using HTML, CSS, and JavaScript - Owned content design and styling for the Movies & TV section, applying usability and navigation best practices to improve user experience	<i>Jan – Apr 2025</i>
Diary of a UCF — Style Guide Book — Documentation & Project Management (ENC4293) - Co-authored the Research & Documentation chapter, covering research methodology and citation standards (APA & MLA) - Conducted academic and technical research and supported technical editing to ensure formatting consistency and visual cohesion across the guide	<i>Aug – Dec 2024</i>

WORK EXPERIENCE

Customer Service Associate — Bravo Supermarkets, Orlando, FL - Communicate effectively with customers in a fast-paced retail environment in both English and Spanish - Maintain accuracy and attention to detail while managing multiple concurrent tasks - Collaborate with team members to support efficient daily store operations	<i>May 2021 – Present</i>
